

## What is the beauty of the biomes of the Americas?

### What geographical skills should I have already developed?

- To identify and explain topographical features especially landscapes and coasts.
- Used fieldwork to make comparisons in human and physical geography
- Know about different climate zones around the world

### What geographical knowledge should I have developed?

- Know how humans affect the environment; how world environments have changed and why people seek to manage and sustain their environment
- Know some benefits and consequences of farming on a volcano
- Know some natural disasters and how they are caused

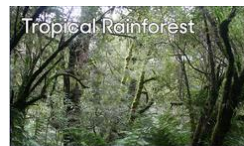

A map of the Americas containing North and South America and the sub-continent of Central America

### To help me answer the BIG question I will be learning...

- Consolidate my knowledge of countries, continents and oceans
- Locate the continents of North and South America and name countries within them
- Understand how the climate affects the different biomes of the Americas
- Compare what it is like to live in the different biomes compared to life in the UK

### To help me answer the BIG questions I will learn the following words....

Word	Definition
Biomes	A large geographical area which is home to certain plants and animals, specifically adapted to suit the environment
Climate	The usual or average weather conditions over a long period of time
Continent	A large landmass made up of many countries
Flora/fauna	Plant and animal life
Latitude	Imaginary parallel lines that circle the globe from east to west
Longitude	Imaginary lines that run north to south from pole to pole
Wonder	A feeling of amazement and admiration, caused by something beautiful, remarkable, or unfamiliar.

Different examples of biomes
