26<sup>th</sup> February 2026

Dear Parents and Carers,

We are excited to tell you that our school will be taking part in a special science day on Wednesday 11th March as part of British Science Week.

This year's theme is 'Curiosity: What is your question?' and the children will spend the day exploring, investigating and asking thoughtful scientific questions about the world around them.

Throughout the day, each class will take part in a range of hands-on investigations designed to spark curiosity and encourage scientific thinking. The children will be:

- Making predictions
- Carrying out simple tests and experiments
- Observing closely
- Recording their results
- Discussing their ideas and findings

Our focus will be on encouraging children to ask their own questions and think like real scientists. We want them to understand that science is not just about finding answers but about being curious and brave enough to ask questions in the first place.

Please ensure your child comes to school in full uniform as normal. Some activities may involve practical experiments, but all necessary materials will be provided by school; there is no financial contribution necessary.

We are very much looking forward to a day filled with excitement, investigation and discovery!

Thank you for your continued support.

Kind regards,

Miss Beaumont

West Sussex County Council
